

**Manage your properties,  
Manage your profits.**

**Remote Eyes<sup>®</sup>**  
**Audio and Video Solutions**  
**for Building Management**

Remote

## Who's watching your property? Can anyone do it better than you?

Managing property is difficult when you cannot be there. Finding quality employees to help you reduce crime, vandalism, and perform proper maintenance can be challenging. Use Remote Eyes® to centralize management of your property.

## Want to increase property values and rents?

**Reduce crime and vandalism!** Remote video monitoring is the leading investment you can make to reduce crime and vandalism at your properties. And, with integrated audio capability, Remote Eyes is an excellent tool for remotely managing the employees and contractors at your property to improve overall maintenance and upkeep.

## Want to be at all your properties at the same time?

**Remote Eyes makes it possible:** Using the Remote Eyes Multi-View Client software package, you can see, hear, and talk to all of your properties at the same time. You can even view all of your lobbies from multiple buildings on the same composite layout at the same time!

## Want exceptional support?

### Remote Eyes leads the industry:

- > Excellent repair or replace warranty coverage
- > Optional next business day on-site support
- > FCC, UL, CE certifications for most configurations
- > ISO-9001 manufacturing process

**Extended Video Archive:** Store up to 540 days of continuous recording on your Remote Eyes video archive.

**Control Entry and Egress:** Access control events inserted on your video clips provide irrefutable evidence to crack down on unauthorized entry into your properties.

**Manage Your Operations:** Easy to use search tools let you review employee and contractor performance from your central office.

**Manage from Anywhere:** Use broadband to connect to your properties from anywhere. See, hear, talk to, and receive access control data from your properties no matter where you are!

**Increase Your Profits:** Use Remote Eyes to satisfy your loss prevention, crime and vandalism reduction, and remote management needs.

**“Nobody does it like Remote Eyes. We recently attended a leading security conference and saw about a thousand vendors and no one had a solution that even came close.”**

—Robert O’Conor, Edgewood Management Corporation

**Best total cost of ownership:** Our patented video compression is 10X better than the industry, meaning you spend fewer dollars for storage and network bandwidth while still enjoying vastly superior image quality and performance.
