## **Remote Eyes<sup>®</sup> Integrates with Micros<sup>®</sup> Symphony<sup>™</sup> Cloud** *Enhanced Security for Large Scale Hospitality Operators*

**Hanover, Maryland, February 22, 2021** - Odyssey Technologies, Inc., a leading video surveillance software vendor, is pleased to announce the successful integration of its Remote Eyes video management system and POSWatch Enterprise<sup>™</sup> loss prevention solution with Oracle's Micros Symphony Cloud POS service. Symphony Cloud is a premier enterprise point-of-sale (POS) solution that can scale to support businesses with thousands of terminals spread over many locations.

"Symphony Cloud users can now protect themselves from internal loss issues by deploying integrated video surveillance and loss prevention from Remote Eyes," stated John Webster, CEO of Odyssey Technologies, Inc. "Remote Eyes camera systems with network connectivity to Symphony Cloud can easily access real-time transaction data and integrate that with the video archive. Odyssey's POSWatch Enterprise software is ideal for large-scale Symphony Cloud users because it supports viewing transaction data and integrated video from all locations at the same time. Automated email alerts and enterprise level reporting make it easier than ever to tighten management control of a complex business environment."

### ***About Odyssey Technologies, Inc.***

Odyssey Technologies, Inc. was founded in 1997 and is an early pioneer in digital video. With over 30,000 video surveillance systems installed worldwide, Odyssey differentiates itself by providing equipment, software, and services for centralizing and automating multi-site operations in Retail, Hospitality, Financial Services, and Property Management. Remote Eyes systems feature superior video compression, multi-site remote video management, and integration with point-of-sale, access control and networked transaction systems.
